DEVIL ✨ M / PRESSKIT

BIOGRAPHY

Devil M is an industrial metal band headquartered in Bremen, Germany. Hailing from different regions of Germany and Austria, the quartet consists of Astharat (vocals and founding member), Rotny (bass/e-guitar since 2016), Vøid (e-guitar since 2016) and Zyphos (drums since 2019).

In 2019 they changed labels and left darkTunes Music Group and announced their signing to Danse Macabre Records.

The industrial metalheads inspire with their penchant for experimental concepts when it comes to albums, stage design, music videos, performance and songs. Their sound is always massively oppressive, coupled with ambient elements that provide a dramatic overtone and creates a very unique atmosphere for the listener.

External influences seem to be chaotic but the artists' guiding ideas and visions run like a red thread through all aspects of the band. In 2006 Devil M was founded by singer and songwriter Astharat Proditor. Mid 2007, already started collaborations on films like "Die at Dawn". Big

musical influences at the time were acts like David Bowie, Marilyn Manson, Nine Inch Nails and Psyclon Nine.

Formerly active in the band were drummer Julian Hemken (2011–2018), bassist Jonathan Meyer (2012–2015), guitarist Lars Everwien (2012–2015) and keyboardist Sonja Langenfeld (2012–2015).

Devil M offers a lot for the ears and also for the eyes. The artwork and designs for all three concept albums comes from Astharats hand, "Revenge of the Antichrist" (2014), "Hollow Earth" (2016) and "Astharat" (2019).

So far, four official music videos have been released, "Astharat" (2012), "Siddhartha Gautama" (2014), "Human Being" (2017) "Savior Self" (2018) and two official lyric videos "Hollow Earth" (2017) and "Marilyn Medusa" (2020).

Devil M were mentioned in well-known scene publications like Legacy, Orkus, Sonic Seducer, Spy, Zillo and were guests e.g. at CT das Radio, Hellentertainment and Radio Hazzard of Darkness. The band has received acclaim from various album and concert reviewers. Never

afraid of the limelight, the group has played concerts all over Germany and beyond the borders of Germany in Czech Republic, the Netherlands, Switzerland and Finland. They supported bands like Mister Misery, Psyclon Nine, Rabia Sorda and Grendel.

The band is no stranger to well-known festivals such as Wave-Gotik-Treffen, Stella Nomine and Helsinki Industrial Festival.

Inspired by industrial metal bands like Nine Inch Nails and 3Teeth, Devil M started a tradition of remix albums beginning with "Inauguration of the Inner Third" (2017) and followed by "Embryogötter" (2020). Both albums remixed by friends and other musical partners in crime. The act are looking forward to continuing with these unique musical collaborations going forward.

"Und trotzdem geht bei den Auftritten der 21 Bands teilweise richtig die Post ab – wie am Samstagnachmittag beim Gig von Devil M. Die Jungs aus Bremen hatten auf ihrer Homepage versprochen, dass die Bühne brennt, wenn sie nach Torgau kommen. Und so ähnlich mutet es dann auch an: Die Nebelmaschine läuft auf Hoch-touren. Es gibt ordentlich auf die Ohren. Das Publikum feiert und geht mit. Stimmung und Ekstase pur."

Leipziger Volkszeitung | <https://archive.is/HEj1#selection-2043.0-2043.172>

"Ich hatte viel Freude an einem sonst für mich nicht wirklich einladend wirkenden Genre. Das liegt vor allem an diesem Hörspielgefühl, an der Atmosphäre, die der Kälte der Musikrichtung gruselig entgegenwirkt."
